Dear Brand Ambassador,

Welcome to The Best Protein Bar Ever Affiliate Fast Start Guide.

Our cloud based company is designed to be more efficient and effective with less overhead, which enables us to pay out more commissions to our community. TBPBE believes that the strength of the company is our community and the people that drive our message, products and programs. This is where we want the rewards to go.

Our philosophy is simple. We wanted to create an opportunity that is easy to implement and even easier to understand. And while some may say that we are just another “network marketing company”, simply because we have a 5 level affiliate payout, this is far from accurate.

First, we don’t want to sell our product, we want to inspire people to buy it with our stories that you help to create. Selling a product is one thing, however building a brand is another. To build a competitive, relevant brand, we must combine an incredible product with a simple yet effective compensation plan.

TBPBE rewards plan is designed to incentivize you to help socialize our stories and product with others and reward you for your reach and the ripple effect you create. We all have value in today’s marketplace and we all should be rewarded for our influence.

The rewards program is simple and easy to understand. There are no monthly minimum purchases. There are no rewards requirements other than purchasing the Lifetime Community Membership for \$49.95. There are no annual renewals. There is no BV. There is no need to keep “legs” balanced. There are no ranks to qualify for. There is no need to have an 18 page compensation plan with definitions that are difficult to understand.

The Best Protein Bar Ever is more than just a protein bar. The opportunity is more than simply earning a few hundred dollars a month. You are now part of a community on a mission to disrupt the marketplace. To change the conversation. To share a protein bar that is simply the best. Period. The best tasting. The best ingredients. The best opportunity.

The time is now.

* **LeptiCore®** provides multifunctional health benefits to help you look and feel your best: Supports weight management and metabolic wellness, Helps support a feeling of fullness and satiety, Supports healthy cardiovascular function, Helps support blood sugar levels already within the normal range, Helps promote a healthy response to inflammation, Helps to promote cellular and tissue health, Promotes a positive mind and mood.

LeptiCore® — Not Just a Weight-Loss Ingredient

This scientifically based and clinically tested ingredient can help people achieve their health and weight-loss goals. **By Nancy J. Miller-Ihli, PhD**

Nancy J. Miller-Ihli, PhD

Successful weight loss requires that we address inflammation, satiety and metabolic challenges. Leptin is a hormone that plays a key role in regulating energy intake and energy expenditure, including appetite/hunger and metabolism. Overweight individuals have elevated leptin levels yet are resistant to the normal effects of leptin.

LeptiCore — a patent-pending ingredient complex of plant-based polysaccharides, esterified fatty acids, pomegranate extract, beta-carotene, and more — has been clinically shown to reduce leptin levels, as well as systemic inflammation. **The result is enhanced leptin function which means people feel full sooner (improved satiety), their metabolism is more efficient (improved thermogenesis), and they have good blood sugar control, allowing them to achieve and maintain a healthy weight.**

LeptiCore is also formulated with blue-green algae, which contains phenylethylamine (PEA) known to enhance mood by raising serotonin levels. **This is an important element for weight loss, as improved mood has been shown to help individuals avoid stress-eating.**

As a scientist and health professional, I always want to back up my nutritional recommendations with hard facts. **And the studies done on LeptiCore are very exciting.** For example, a recent eight-week study* published in the journal *Lipids in Health and Disease* highlighted LeptiCore's weight management and metabolic wellness benefits. **This study found that taking 600 mg of LeptiCore daily decreased body weight, body fat and waist and hip circumference, lowered leptin and c-reactive protein levels, and improved blood sugar balance, blood lipid profiles and serotonin levels.**

“In this study, participants achieved these great results *WITHOUT* modifying their food choices.”

CLINICAL TRIAL RESULTS — 300 MG LEPTICORE TAKEN 2X PER DAY*

WEIGHT LOSS	↓ 5.4%, 11.6 lbs	BODY FAT LOSS	↓ 2.8%
WAIST CIRCUMFERENCE	↓ 4.4%, 1.8 in	HIP CIRCUMFERENCE	↓ 3.5%, 1.7 in
TOTAL CHOLESTEROL	↓ 18.0%	FASTING BLOOD GLUCOSE	↓ 7.9%
LDL CHOLESTEROL (BAD)	↓ 14.7%	SERUM SEROTONIN	↑ 28.6%
HDL CHOLESTEROL (GOOD)	↑ 13.7%	SERUM LEPTIN LEVELS	↓ 46.9%
PLASMA TRIGLYCERIDES	↓ 7.1%	C-REACTIVE PROTEIN LEVELS	↓ 15.1%

It is excellent that body fat was monitored in the study, because it **showed fat was lost rather than muscle or water**. Also, reducing body fat — particularly in the abdomen, as shown by decreased weight and hip measurements — significantly reduces health risks.

One more thing: **In this study, participants achieved these great results *WITHOUT* modifying their food choices.** Just imagine what can be achieved when LeptiCore is combined with a healthy, low-glycemic eating program and proper exercise. The results can be outstanding!

Studies like this show that LeptiCore offers great support to individuals who want to lose weight, and improve their body composition and cardiovascular health. In my opinion, **LeptiCore is much more than a weight loss ingredient. It is really a wellness ingredient because it can positively impact so many aspects of health.**
